

NPT Software Solutions, now better than ever. **GUARANTEED**

Gazelle

Continuously track the availability, allocation and use of funds at the Participant and Fund Source levels, throughout the entire lifecycle of all Training Accounts (ITA) and every Supportive Service with our easy-to-use, easy-to-manage web-application called Gazelle. Gazelle prevents spending over or under budget, and automatically enforces your program & fiscal business rules without staff or management having to lift a finger or move a single piece of paper.

Workforce
PRODUCTIVITY SUITE

One Suite, Many Solutions. WorkforcePS is a comprehensive, integrated software suite designed exclusively for workforce. WorkforcePS brings together accounting, customer & service tracking, ITA & support services tracking, and ad-hoc reporting into one, unified, easy-to-use, easy-to-manage solution with the features required for successful operation of your workforce. WorkforcePS consist of MIP, Gazelle, Service Intelligence and Private Cloud Hosting.

Service Intelligence

Accurately track customers & services across ALL programs & locations. Eliminate burdens on staff and automate Tracking & Reporting of all foot traffic and every service delivered with our easy-to-use, easy-to-manage, web-application called Service Intelligence (Si).

Ensure mission productivity with Abila MIP Fund Accounting. MIP is a comprehensive, configurable solution which enables you to make better financial decisions, execute financial management with greater precision and better track, report and manage finances across the entire organization. MIP Fund Accounting offers 20+ fully integrated modules to meet all your accounting needs.

Private Cloud Hosting

SSAE 16 Certified • Geographic Redundancy • Continuous Availability • Self-Service and No Long-Term Contracts. NPT Cloud Hosting is now better than ever and guaranteed. Put your Abila MIP system w/ integrated 3rd party applications, along with over 6,000 Abila users already secured, in the NPT Cloud.

Accuracy, Consistency, Transparency
